# Create A Database In Cloudant DB
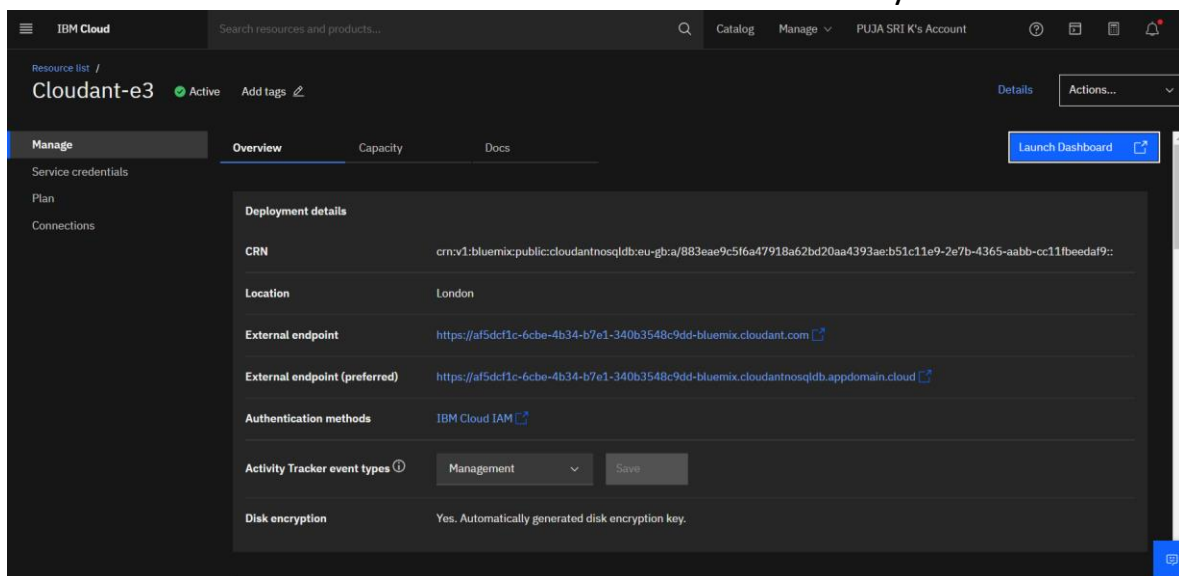

Aim: To create a database in Cloudant DB to store location data.

 Steps followed:
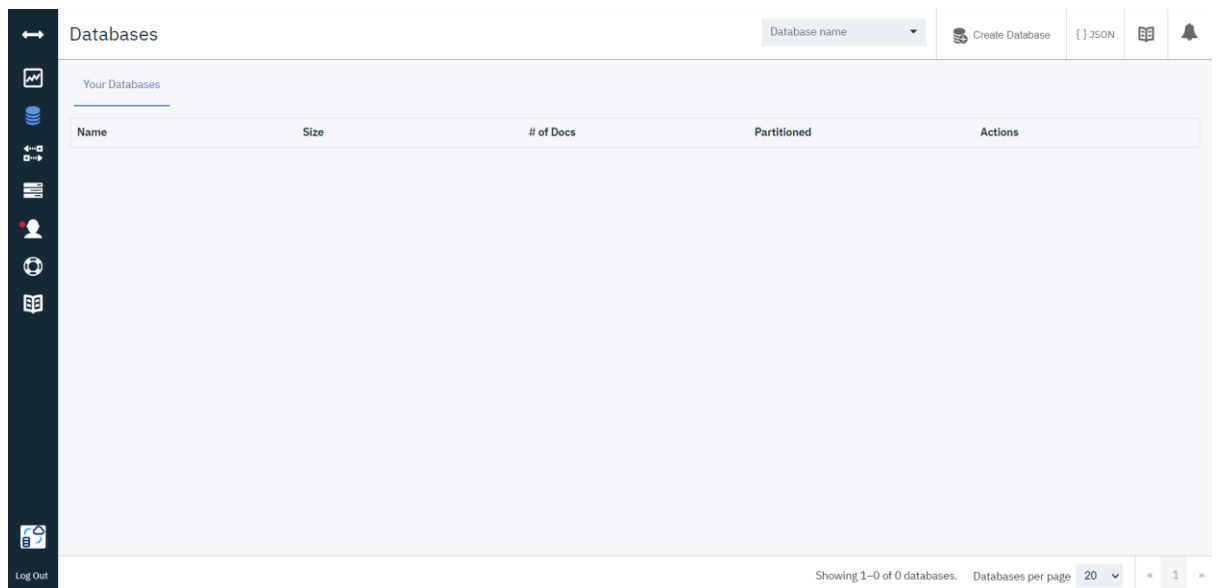

● Logged in to IBM Cloud account

● Clicked on the "Create Resource +" button

● Searched for "Cloudant"
● Chose the "Lite Version" and clicked on "Create"

● The Cloudant database resource was created successfully

● Click on Launch Dashboard

● Clicked on "Create Database". Entered "pujasri" as the database name and the "Non-partitioned" option

● The database "pujasri" was created successfully

Result: A database to store the location data was created successfully on Cloudant DB
